Megjelent könyvfejezetek

II.5 fejezet Vesefibrózis

Mózes Miklós, Mucsi István Rosivall László

Nephrológia Elmélet és Klinikum dialysis és transplantatio

Szerkesztette Rosivall László, Kiss István

Medintel Könyvkiadó 2003

Magyar folyóirat:

Kökény G, Godo M, Mozes MM, Rosivall L, Hamar P. The role of T lymphocytes on glomerular oxidative stress and TGF-beta expression in progressive kidney fibrosis. *Acta Physiol Hung* 2007; 94 (4): 363

Kökény G, Rosivall L, Mózes MM. Hyperosmolarity increases TGF-beta1 RNA expression in the medulla. *Acta Physiol Hung* 2007; 94 (4): 364

Mózes M, Kökény G. A veseszövet regenerációja: kommentár. *Orvostovábbképző Szemle* 2006; 13 (9):37-39

[Increased renoprotection with ACE inhibitor plus aldosterone antagonist as compared to monotherapies--the effect on podocytes.](#)
Nephrol Dial Transplant. 2009 Aug 8.

Shujaa N, Zadori ZS, Ronai AZ, Barna I, Mergl Z, Mozes MM, Gyires K.
[Analysis of the effect of neuropeptides and cannabinoids in gastric mucosal defense initiated centrally in the rat.](#)
J Physiol Pharmacol. 2009 Dec;60 Suppl 7:93-100.

Anna Buday, Petra Eorsy, Mária Godó, Miklós Mózes, Gábor Kökény, Zsombor 5
Lacza, Ákos Koller, Zoltán Ungvári, Marie-Luise Gross, Zoltán Benyó, Péter Hamar
TGF-beta impairs vasomotor function by activation of NADPH oxidase driven superoxide production leading to hypertension in apoE^{-/-} mice.
[Am J Physiol Heart Circ Physiol.](#) 2010 May 28.

Nemzetközi folyóiratban megjelent absztraktok:

Increased interstitial matrix and TIMP-1 expression in TGF-beta1 transgenic mouse kidney
MM Mozes, S Shrivastav, V Factor, SS Thorgeirsson, JB Kopp
Molecular biology of the cell 1995 November (S) Vol6 A726

Increased interstitial matrix and TIMP-1 expression in TGF-beta1 transgenic mouse kidney
MM Mozes, S Shrivastav, V Factor, SS Thorgeirsson, JB Kopp
J. Am . Soc. Nephrol. 1995 Sept. Vol. 6(3). 1226

Captopril (CAP) ameliorates nephropathy in HIV-transgenic mice
JE Bird, SK Durham, MR Giancarli, P Gitlitz, D Pandya, D Barton, MM Mozes, JB Kopp
J. Am . Soc. Nephrol. 1996 Sept. Vol. 7(9). A3019

Characterization of cultured renal epithelial cells from TGF-beta 1 knock-out and wild-type mice and their behavior in high glucose
BB Hoffman, J Guo, MM Mozes, JB Kopp, FN Ziyadeh
J. Am . Soc. Nephrol. 1997 Sept. Vol. 8. A2309

Androgen regulates transgene expression in HIV transgenic mice

S Shrivastav, MM Mozes, JB Kopp
J. Am . Soc. Neph. 1997 Sept. Vol. 8. A2357

Bone morphogenetic protein-7 partially rescues p53-induced oligonephronia in dual transgenic mice
S Tanawattanacharoen, AJ Nosti, MM Mozes, H Oppermann, JB Kopp
J. Am . Soc. Neph. 1998 Sept. Vol. 9. A1879

Regulation of inducible class II MHC and TGF-beta receptor expression in cultured renal epithelial cells derived from TGF-beta1 knock-out mice
N Banu, BB Hoffman, MM Mozes, JB Kopp, FN Ziyadeh, CM Meyers
J. Am . Soc. Neph. 1998 Sept. Vol. 9. A2305

Hyperosmolarity increases TGF-beta 1 RNA expression
MM Mozes, Z Rago, JB Stokes, L Rosivall, JB Kopp
J. Am . Soc. Neph. 1999 Sept. Vol. 10. A2307

Regulation of inducible class II MHC, costimulatory molecules, and cytokine expression in TGF-beta1 knock-out renal epithelial cells. Effects of exogenous TGF-beta1
N Banu, MM Mozes, JB Kopp, FN Ziyadeh, CM Meyers
J. Am . Soc. Neph. 1999 Sept. Vol. 10. A2563

HGF/TGF-beta1 double transgene mice die of kidney failure while liver shows no major alteration
Kiss A, Bögi K, Mózes M, Schaff Zs, Kopp JB, Thorgeirsson SS
J Hepatol 30 Supplement 1: 55 (1999)

Liver fibrosis is absent in HGF/TGFbeta 1 double transgenic mice while glomerulosclerosis results in kidney failure
Kiss A, Mózes M, Bögi K, Kaposi Novák P, Thorgeirsson SS, Kopp JB, Schaff Zs
Z. Gastroenterol. 39: 5 Mai 2001

Genetic background determines the progression of TGF-beta1 induced renal fibrosis in transgenic mice Mózes Miklós, Gerő Domokos, Rosivall László., American Society of Nephrology 2005
Journal of American Society of Nephrology (JASN), Volume 16. October 2005. page 219A: TH-PO466

C57Bl6 genetic background reduced the progression of renal fibrosis in Alb/TGF-beta1 transgenic mice. D Gero, G Kokeny, L Rosivall, M Mozes. Nephrol Dial Transplant 2007, 22 (S6): 103 (FP255)

Progression of diabetic nephropathy is not affected in transgenic mice overexpressing relaxin-1. G Kokeny, K Kecsan, D Gero, L Fang, M Mozes, L Rosivall Nephrol Dial Transpl 2008, 1 (S2): 75 (SP150)

Selective PDE5 inhibition ameliorates progression of diabetic nephropathy in the rat.
L Fang, G Szabo, T Radovits, M Mozes, L Rosivall, G Kokeny. Nephrol Dial Transpl 2008, 1 (S2): 76 (SP151)

Effect of combined treatment with prorenin blocker and ACE inhibitor on diabetic nephropathy in the rat
G Kökény, L Fang, CS Révész, M Mózes, L Rosivall (Sa 226)
XLVII ERA-EDTA Congress June 25-28, 2010.

Restoring cGMP levels in diabetic rats attenuates podocyte damage
L Fang, T Radovits, G Szabó, M Mózes, L Rosivall (Osu006)
XLVII ERA-EDTA Congress June 25-28, 2010.

Progression of renal and myocardial fibrosis is determined by genetic background in Alb/TGF-beta1 transgenic mice
G Kökény, O Fekesházy, L Fang, D Geró, L Rosivall, M Mózes (Su402)
XLVII ERA-EDTA Congress June 25-28, 2010.

Hyperosmolarity increases TGF- β 1 expression in the rat renal medulla.
Kokeny G, Szoleczky P, Fang L, Rosivall L, Mozes MM.
Nephrol Dial Transplant Plus 2011, 4 (S2): 421-429 (F009)

Genetic susceptibility to TGF-beta induced renal fibrosis is associated with altered TIMP-1 expression.
Kokeny G, Fekeshazy O, Fang L, Rosivall L, MM Mozes
Nephrol Dial Transplant Plus 2011, 4 (S2): 421-429 (Sa248)
